

OUTSIDE THE BOX *continued from page 10*

Informs Inc. and Traci Hrudka bring such products and solutions to the fore front of automation with a myriad of products and advanced technology to bring us from the dinosaur days to the new millennium. Haven't we all heard "knowledge is power?" Now there is a new one, "Automation equals profits."

When Traci was asked why Informs? Her reply was simple, "I know the automotive industry and what automation can do for it. I know the people and there is a trust there, kind of like coming back home. The fun part is getting them to think outside the box."
