HIGH-PERFORMANCE DIESEL BUILDER'S GUIDE FROM CARTECH

This is the first authoritative guide to modern diesel performance. It covers all aspects of the modern turbocharged diesel engine: turbochargers, intake systems, camshafts, cylinder heads, fuel systems, combustion chambers, transmissions and gearing. The book includes detailed guidance and commentary on tuning your diesel engine from Gale Banks,

principal of Gale Banks Engineering - one of the foremost authorities in diesel performance. Author Joe Pettitt, Gale Banks and other industry experts provide advice on how to upgrade their diesels the right way. This guide is the first to explain in detail how diesel engines work and how to increase their performance.

ACCESS® COVER & RACK COMBO FITS ALL 2007 NEW BODY GMC MODELS

Agri-Cover, Inc. (ACI) announces the release of the Access® Roll-Up Cover & Rack Combo for the 2007 Chevy Silverado and GMC Sierra short, standard and long bed models. By merging the benefits of a roll-up cover and a durable rack into one efficient package, this system greatly increases the hauling and storage capacity of a truck by providing additional levels of storage above and below the tonneau cover. Its unique design makes cargo accessible without the need to remove the rack or its contents. Featuring high and low clearance levels and high strength extruded aluminum and adjustable crossbars, the rack allows for increased versatility with the Access® Roll-Up Cover.

AGRI-COVER'S NEW EZ-RETRIEVER™

Cargo Management is now within your reach Agri-Cover, Inc. is excited to announce the all-new EZ-Retriever™, a truck utility tool that helps load

and unload items from the back of your truck bed. Easily reach items that have slid to the front of your truck box during driving or unload tools, groceries and other cargo. The extendable EZ-Retriever™ is manufactured from aircraft grade heavy-duty aluminum and features an extendable hook to reach items from the tailgate or side of the truck. The extendable EZ-Retriever™ works great for vehicles with toppers, tonneaus or lids.

450 GPH MECHANICAL FUEL PUMP FROM RACE PUMPS

Race Pumps has dramatically increased the performance of their Billet Piston Fuel Pump to 450 GPH and increased the service life with the addition of solid Teflon seals... to 240,000 miles. The Race Pump now has the highest flow and the longest service life of any block mount mechanical fuel pump. The patent pending "variable displacement" design allows the same pump to be used on engines with 200 to 2,500 horsepower. The pump adjusts output to demand rather than bypassing excess fuel like older designs, for less power consumption and cooler fuel. The Race Pump is available for small and big block Chevrolet, Ford and Mopar; in carbureted and EFI versions. Inlets are -8 or -10 AN, outlets are -8 AN. Construction is 6061-T6 billet aluminum with a hard anodized finish.

WHAT'S NEW?

NEW STAGE 2 COLD AIR INTAKE FOR '06-'07 JEEP GRAND CHEROKEE SRT-8

Advanced FLOW engineering (aFe), an industry leader in performance cold air intakes, filters and exhaust systems is pleased to announce the release of their new Stage 2 cold air intake for the 2006-07 Jeep Grand Cherokee SRT-8 with the 6.1L V8 part numbers 54-11192 and 51-11192. Part number 54-11192

includes a high flow washable/reusable, 360-degree Pro-5R aFe filter for maximum filtration and airflow. This kit also includes a one-piece molded air box that utilizes the stock inlet for maximum cold air induction. The brushed aluminum cover blocks out engine heat and directs cold air through the filter. Part number 51-11192 features the brand new Pro Dry-S filter from aFe. The Pro Dry-S filter is the new breed of performance filters providing maximum filtration and air flow without having to use filter oils. For more information on this or any other aFe product, please visit our website at www.aFepower
