Lokar's full color catalog showcases our product line including an informative FAQ section. Lokar manufactures quality products that cross markets from street rods to performance vehicles, including muscle cars, kit cars, sport trucks, late trucks, Camaros, tri-five and many more.

Flex-a-lite® has just published a new, 89-page catalog, covering the company's entire line of electric and belt-driven engine cooling fans such as, fan clutches, transmission oil coolers, engine oil coolers, fan/cooler combinations, a full line of Flex-a-fit® radiators and radiator/fan combinations and accessories.

MagnaFlow Performance Exhaust's first complete electronic catalog CD was recently released to distributors and jobbers. This catalog includes every part number offered by MagnaFlow, including performance cat-back systems, mufflers, tips and both universal and direct-fit catalytic converters. Each part number includes an image of

the part, list and jobber pricing and a link to the installation instructions if applicable, which are created in PDF format for easy viewing. The user has the ability to search by vehicle application or by part number and can define which types of parts should be included in the search. MagnaFlow is also offering a cross-reference feature on universal components, allowing the user to type in a competitor's part number to find its equivalent replacement MagnaFlow part number.

Hurst Performance Products has released their new 48-page product catalog. Printed in full color, this new catalog contains information for the entire Hurst product line, including new products. Full application listings for all products are also included in this catalog. For Hurst information go to www.hurst-shifters.com. *Hurst is a division of Mr. Gasket Co.*

Jiffy-tite's color catalog features 24 pages of Quick-Connect fittings including Jiffy-tite's new Stealth Black product line. Available for most fuel, oil, transmission and water applications, these fittings are available in AN, NPT, o-ring boss seals, lanyard, hose barb and push-to-lock for all your plumbing applications.
