NEW PRODUCTS

FIX YOUR CHEVY STEERING CLUNK

Borgeson offers a replacement steering shaft for 1999-2006 Chevy Trucks and SUVs. The stock assembly develops a clunking sound very

early in its life. It can be returned to the dealer, but they just apply a band aid. Borgeson offers the fix. A 15 minute install fixes the problem for good. For more information call Borgeson at 860-482-8283 or check out www.borgeson.com.

FIDANZA INTRODUCES 1.0 MUSTANG CLUTCH

Fidanza has introduced its 1.0 clutch (#381840) for Mustang owners who want a low cost performance alternative. The new offering is a complete package at a budget friendly price. Available for the 1986-1995 5.0L, 1996-1998 4.6L Cobra and 1996-2000 4.6L GT. Holding capacity up to 350 lbs.-ft. torque.

NEW PRODUCTS

SUPERCHIPS CORTEX VEHICLE PERFORMANCE PROGRAMMER

Now Includes OEMFLEX Capability

Superchips announces the innovative Cortex performance programmer now includes OEMFLEX capability. Cortex is the latest innovation in a long lineup of world-class Superchips performance programmers and includes an industry first two-year limited powertrain warranty and OEM-FLEX tuning. OEMFLEX tuning means if you own multiple vehicles from the same OEM and Superchips provides coverage on them; you can use the Cortex one at a time on all of them. OEMFLEX e.g.: if you own a Mustang GT as your Monday through Friday driver and a F150 for towing your boat on the weekends. Tune the Mustang GT for enhanced performance and enjoy the extra horsepower. Saturday morning return the Mustang GT to stock and tune the F150 to benefit from the extra torque and optimal transmission settings for towing. Sunday night return the F150 to stock and re-tune the Mustang GT.
