## JOTTO-CARGO SLIDE

CARGO MANAGEMENT REDEFINED! Tired of what you need most rolling around your truck bed or SUV and having to climb in to get it? The Jotto-Cargo Slide provides easy access to cargo in a pickup truck on the job site, football field or grocery store parking lot! LIVE, WORK, or PLAY! Constructed with 100% aircraft grade aluminum, our patent pending AlumaTrack System provides strength and precise performance. Visit us on the web at [www.JottoCargoSlide.com](http://www.JottoCargoSlide.com).

## DUSTOP™ CUSTOM INDOOR PROTECTION

Just because your vehicle is stored indoors doesn't mean it's properly protected. Dust, chemicals, airborne pollutants, etc., all populate your garage as well, and can be harmful to your paint and interior. To combat these intruders, Covercraft makes custom vehicle covers with DUSTOP™, which is the softest (soft as flannel) material for fine paint and it is totally dust-proof. It's rated BEST for indoor conditions and carries a four-year warranty under normal use.

## FORD BLUE ACCESSORIES JOIN POPULAR LINE OF CHEVY ORANGE PRODUCTS

Trans-Dapt Performance Products of Whittier, Ca., announces the addition of FORD BLUE engine accessories to its PerfectMatch™ line of powder coated engine products. Ford Blue valve covers, like the SB Ford set shown, oil pans and waternecks, along with complementary black powder-coated pulleys and air cleaner sets compete the suite of Blue Oval engine bay components. The tough, baked-on powder coating matches the Dark Blue (Ford Corporate Blue) color used on Ford engines built after 1966. The PerfectMatch powder coated finish will look better and last longer than any factory painted, or garage refinished component. These parts are ready to install, which saves time by not requiring any refurbishing or prep work and fingerprints, oil and grime easily wipe-off the smooth, durable surface.

## THREE SEMA SHOW WINNERS FOR PRO PRODUCTS

The 2008 SEMA Show was a success for Professional Products once again. Five awards were presented to Professional Products for three of its new products, including one for the Best Engineered New Product!

The Powerfire™ Ready-To-Run electronic distributor won the Best Engineered New Product Award and a Global Media Award.

The Powerjection III™ EFI System received the Runner Up Street Performance Award and a Global Media Award.

The EFI Snorkel Assembly also received the Runner Up Street Performance Award at SEMA. It accepts several throttle bodies and has 360-degrees of adjustability to best fit your application.
