## Be First to Market!

If your not, you will notice your clutch sales slipping

## Already in the Future!

### Leaders in Powertrain Products to the OEMs

- #1 supplier in Japan to all 11 Japanese vehicle manufacturers for their transmission related products. (Last 70 years.) OE to GM and Ford in the US.
- The choice of professional technicians, for a do it once reason related to installation problems with inferior brands.
- Exedy is the OE. Your parts are 100% tested to work in vehicle it was originally made for.
- An OE supplier cannot stop an OE production line and Exedy product will not fail you, costing lift down time, during installation and premature wear.

Yes, Quality Counts! The installer knows this, when it takes 6-8 hours to install current model import clutches.

## EXEDY SETS THE STANDARD

# EXEDY
